Correction to Rushton and Jensen (2005)

In the article “Thirty Years of Research on Race Differences in Cognitive Ability,” by J. Philippe Rushton and Arthur R. Jensen (*Psychology, Public Policy, and Law*, 2005, Vol. 11, No. 2, pp. 235–294), the equation on p. 271 (in the first paragraph of Section 13: Evaluating the Culture-Only and the Hereditarian Research Programs) should be $10 \times 2 = 20$, not $12 \times 2 = 24$. In the same line of text, the score should be -20 , not -24 .

Furthermore, in the note to Table 5 on p. 273, the equation in the last line of the note should be $10 \times 2 = 20$, not $12 \times 2 = 24$. Also in that same line, the score should be -20 , not 24.

Finally, on p. 274, in the last line of the first paragraph (the *Mean Race—IQ Differences Are Found Worldwide* subsection), (+) should be (++).
